Historical buildings

Entertainment and Leisure Centre “Belmontas”

You have come to one of the most beautiful places in Vilnius... The French (“Belmont”) mill was built in 1838 and stopped working only in the middle of XX century. Since then, it was not used. The renovation works of this unique complex began in 2001. The idea of restoration was based on the respect to the remaining relicts of our history and to the amazing landscape of Vilnius city’s surroundings. All authentic buildings were thoroughly renovated and restored; lost elements were rebuilt and their new purpose was applied to the plans and structures of the old mill. Now there are 10 halls of various size and use. They may receive from 20 to 1000 guests. During summertime an outdoor restaurant “Amphitheatre”, located on the bank of the Vilnelė River, is opened. We may receive up to 250 guests in our outdoor restaurant.
